ABOUT Holy kids

Holy kids is an academic solution provider where we support affordable private schools and entrepreneurs in delivering the right kind of education through an innovative and well researched curriculum, regular guidance and training for teachers. Parents form an integral part of our program and special emphasis is laid on parent engagement programs resulting in holistic development of the child.

Our Belief About Children

We at Holy kids, are committed to facilitate Holistic Development of Children. To bring in this development, our framework is supported by various approaches that provide Qualitative Learning Experiences to the Children. Our Learning Outcomes are designed keeping in mind- how children develop, how they learn, their interests, their innate potentials, how they cope with the challenges during the process of Learning and how they emerge as confident individuals. The curriculum surrounds itself with various themes that provide opportunities for children to learn and explore. The belief that every child is unique is drawn very finely through the process of understanding every child's potential and then catering to their needs so the curriculum becomes more individualised wherever required.

Children develop holistically and learn as a whole.

Children's development is influenced by different social and cultural contexts they live in.

Children learn best when they are actively involved in the construction of knowledge.

Every child can learn and each child learns differently.

Children develop knowledge, skills and dispositions by building on those already acquired.

Children develop and learn best when they feel safe and valued.

Holy kids Curriculum

Our program aims to incorporate child-centered and inquiry based learning experiences with top-quality equipment, staffing, and resources. Our educators leverage their experts and training to deliver the edge that want for your child's holistic development.
